## TECHNICAL SKILLS

- Figma
- Webflow
- HTML
- CSS
- React
- React Hook Form
- Next.js
- Tailwind CSS

## ADDITIONAL SKILLS

- Linear
- Notion
- Version Control
- Responsive Design
- Cross-Browser Compatibility
- Problem-Solving
- Communication
- Time Management

## EDUCATION

University of Lahore, Lahore

**Bachelor of Science:** Computer Science

## SUMMARY

I'm a Front-End Developer who design and has spent a year diving into coding. As I moved into the realm of UI/UX, I found out how to create digital experiences that flow smoothly and leave a mark. Nowadays, I'm a developer who really cares about getting every little thing right and coming up with cool new ideas. I use the power of coding to make designs that put users first come alive. Beyond all the technical stuff, I believe that when design and development work together, amazing things happen. I'm all about making experiences that people will love and remember for a long time.

## WORK EXPERIENCE

### Front-End Developer

Grandeur

07/2022 - 08/2023

Grandeur is a US & Pakistani Based Startup which lets hardware developers securely connect devices to the cloud, store data, and build custom dashboards without provisioning servers and writing custom APIs.

- Conducted UX interviews with US-based customers, gathering valuable insights for product development.
- Created detailed prototypes based on interview findings, translating user needs into actionable design concepts.
- Developed the final product, collaborating with the UI/UX design team to ensure alignment with user-centered design principles.
- Utilized advanced web development technologies including React, Node.js, HTML, CSS, and JavaScript.
- Developed Dashboard, a web application, a tool, using React.js.
- Implemented user-friendly form and custom input components.
- Ensured seamless navigation and page rendering using Next.js for improved performance and server-side rendering.
- Ensured responsiveness, cross-device compatibility, and a consistent user experience using Tailwind CSS for styling and layout.
- Leveraged asynchronous programming with async/await to handle API requests efficiently.
- Implemented Suspense to gracefully handle loading states, success and errors, ensuring smooth transitions and providing users with a more polished experience.
- Created custom and dynamic components to enhance the versatility of the application.
- Proficiently utilized React Hooks to create dynamic and responsive user interfaces, showcasing expertise in state management, lifecycle events, and form handling.
- Developed a custom React table component designed to visualize table data in an efficient and user-friendly manner.

## INTERESTS

- Badminton
  - Traveling
  - Gym
  - Photography
  - Editing
  - Cars Modification
- 

## EXTRACURRICULAR ACTIVITIES

- Search and Rescue club
- Sports Club

- Converted class components into functional components, improving code maintainability and performance.
- **Launch Week 1 (Team Leader):**
  - Successfully led the development and launch of the new Dashboard
  - Took charge of the project from inception to delivery.
  - Collaborated with cross-functional teams, ensuring seamless development, and overseeing the implementation of user-friendly features.
- **Launch Week 2 (Project Leader) :**
  - Spearheaded the design and development of the Streams feature's user interface (UI) and its integration into the platform.
  - Orchestrated the entire launch process to make Streams feature available online.

### Intern UI/UX

#### Grandeur

06/2022 - 07/2022

- Collaborated with the design team to create visually engaging and user-friendly interfaces for the company's products.
- Utilized Figma extensively as the primary design tool to craft wireframes, interactive prototypes, and mockups.
- Conducted user research and gathered feedback to inform design decisions and enhance the user experience.
- Assisted in the creation of marketing materials and promotional graphics with a focus on maintaining consistent user-centric design.

### Intern Graphics

#### Channel-3, Lahore

04/2022 - 05/2022

- Completed final touches for projects such as images sizes and font selection.
- Met with customers to present mockups and collect information for adjustments.
- Developed creative design for print materials, brochures, banners, and signs.

## MILESTONES

### Career Counselor App

Developed a no-login-required Career Counselor App in Java and SQL, providing students with personalized career guidance through IQ, aptitude, personality, and competency tests based on the Holland Code.

### WhatsApp Redesign App

Rebranded and enhanced the WhatsApp messaging app for improved efficiency using Figma for design and React for front-end development.

### Grandeur Launch Week Photography

Documented the Grandeur launch week with captivating photography, capturing the essence and excitement of the event.
